

7th European Windstorm Workshop - Introduction

Joaquim G. Pinto, Madeleine-Sophie Deroche, Florian Pantillon, Patrick Ludwig

Institut für Meteorologie und Klimaforschung – Department Troposphärenforschung

European Windstorm series

“The European storm workshops aims at bringing together dynamical meteorologists, climatologists, statisticians, stakeholders and risk model developers from insurance and engineering consultant companies. Thereby, these interdisciplinary workshops try to bridge state-of-the-art breakthroughs in sciences to the practical implementation in risk modeling.”

Program today

- 12:00 Lunch and Registration
- **13:30 Introduction**
- 14:10 Session 1: Dynamics of European windstorms part I
 - Dacre et al. (Keynote)
 - Büeler et al.
 - Eisenstein et al.
- 15:20 Coffee Break
- 16:00 Session 1: Dynamics of European windstorms part II
 - Pante et al.
 - Quinting et al.
 - Liberato et al.
- 17:00 Icebreaker

Program today

■ 13:30 Introduction

Introduction Waves to Weather (Pantillon)

Introduction Insurance Industry (Deroche)
